PROJECTS

MyDopple

Group project team of two. We used HTML, CSS, JavaScript, and a machine learning library, TensorFlow.js. Matcher application allows users to a matching actor/actresses to a picture they upload.

FurEver

Pet adoption site created using Express, Node.js, PostgreSQL, JavaScript, HTML, and CSS. Users can create an account, log in, update personal information, add pet for adoption, edit pet information, view all pets available for adoption in database.

EXPERIENCE

Various Companies — *Atlanta, GA*

JUNE 2013 - SEPTEMBER 2019

Alliance Flowers Export Plc — *Ethiopia*

APRIL 2008 - SEPTEMBER 2013

Created invoices for customers, recorded receivables, inventories, and accounts payable. Generated financial statements and facilitated account closing procedures each month using peachtree.
